

Video Transcript: About OASH: The Benefits of Becoming an OASH Employee

The Office of the Assistant Secretary for Health, OASH, is where your passion meets our purpose.

Where every employee can make a difference and improve our nation's health by working on issues that matter across our 10 Public Health offices.

Where personal and professional growth is more than celebrated, it's cultivated; through hands-on mentorship and professional development.

And where DEIA is more than a buzzword. It's a belief.

If you're ready to turn your passion into your profession, OASH is the place for you.
